While upon the verge of entering into new arrangements relative to the conduct of this business, we cannot refrain from touching upon a few of the many reforms in Lumber selling inaugurated by us. That we have served you well our extensive business attests.

We introduced gang-sawed even thickness boards and joist in lieu of old circular sawed lumber. We introduced North Carolina Original Growth Kiln Dried Lumber in place of sap-stained second growth Virginia pine, and we combined hardware and millwork with the lumber business, so that you could buy everything that enters into the construction of a house at one place. And lastly we lowered the prices on all lumber and building materials so that cash buyers could find as low prices in Washington as in Baltimore, New York or any other city in America.

The First Championship Games to Be

Played on April 19. The championship season of the National League and American Asociation of professional base ball clubs for 1894 will open Thursday, April 19, as has already been stated in The Star. This is a settled fact, the authority for which is no less a personage than President Young himself. When President Von der Ahe learned that it was proposed to open the championship season April 26, the same as last year, he, in conjunction with John T. Brush of the Cincinnati club, suggested the feasibility of opening the season a week earlier, as it was argued that the earlier opening would be generally beneficial to the majority of the league clubs, and President Young ac-cordingly started out to find an expression of feeling on the subject. He stated that rearly all the league clubs favored the early opening, consequently he is preparing

GENERAL FOREIGN MATTERS.

LONDON, Jan. 31.-The Pall Mall Gazette declares that it learns from a source in which it has every confidence that Mr. Gladstone has finally decided to resign office almost immediately. According to the Pall Mall Gazette Mr.

Gladstone will announce his decision in a letter to the queen before the reassembling of parliament. Mr. Gladstone's decision is said to be due to a sense of his advanced age and the great ctrain the late arduous session im-

posed upon him. Finally, it is said, Mr. Gladstone is deeply disappointed at the rejection of the home rule bill. The Pail Mall Gazette adds that it is understood that demestic pressure has considerably influenced Mr. Gladstone in his

decision. A Central News reporter showed the Pall Mall Gazette's article this afternoon to G. W. Spencer Littleton, Mr. Gladstone's secretary. He declared that he knew nothing about the report that Mr. Gladstone would shortly resign office. He added that he would telegraph the statement to Mr. Gladstone, who is now at Biarritz, France, and that he would inform the reporter as to the reply he received from the prime minis-

AN OCEAN RACE.

The Majestic and New York Hurry Their Mails to London. LONDON, Jan. 31 .- On January 24

most interesting race across the Atlantic was started. The steamship Majestic of the White Star line crossed the bar at Sandy Hook at 4:26 p.m., bound for Liverpool via Queenstown, with seventy-eight bags of letters and ninety-one bags of papers, or one hundred and sixty-nine bags of mail matter in all.

Just four minutes previously, or at 4:22 p.m., on January 24, the American line steamer New York, for Southampton, cleared the bar with one hundred and seventyeight bags of letters, four hundred and for-

The Majestic reported at Queenstown that on the 29th and 30th she experienced a strong hard gale, with a heavy westerly sea. Her record to Queenstown, made in September, 1890, is five days, twenty-three hours and sixteen minutes, while that of the New York to Queenstown, made in August, 1892, is five days, nineteen hours, fifty-seven minutes. The Queenstown record is now held by the Campania, which ship, on November 3, 1803, placed the record at five days, twelve hours and seven minutes. The Majestic this morning only landed the Irish mails at Queenstown and started for Liverpool with the English mails at 5:20 a.m.

mails at 5:20 a.m.

The steamship New York passed the Scilly Islands at 2 p.m., but is not expected to arrive at Southampton before midnight.

Great interest has been manifested as to which of these steamers would be the first to deliver her mails in London. The interest shown in this test arises from the fact that the question of mail contracts has been considerably agitated of late, and the English post office authorities have been severely blamed for giving considerable of the mail matter to lines running slow steamships to New York, when they had the superprised. when they had the opportunity of deliver-ing this mail matter to much faster boats, even though the latter flew foreign This apparent desire upon the part of the British post office authorities to foster slow British steamship lines at the expense of British merchants, when the latter could be greatly benefited by having their mail carried by faster vessels of the American or German lines, sailing from Scuthampton, has caused much discontent. Unfortunately for the present test, only a small amount of the mail sent by the Majestic on the present trip is intended for London.

PARIS, Jan. 31.-The execution of Vaillant, the anarchist, who, on December 9, threw a bomb into the chamber of deputies, for which he was tried and sentenced to death, was to have taken place today, but has been postponed, pending a final appeal to President Carnot.

The Place De La Rouquette was again crowded last night and this morning by the same throng of sight seers who have been awaiting in that neighborhood since Sunday night. The authorities are carefully watching all

WHAT DID IT.

From the New York Sun (dem.). A democratic plurality of 8,825 in the fourteenth district has been changed to a republican plurality of 984; and a democratic plurality of 11,869 in the fifteenth district has been reduced to 4,687. This is the judgment of democratic New York upon the cowardly and insensate policy of the leaders without leadership at Washington. These are the first fruits of the Wil-

From the New York Times (dem.). The defeat of Brown is a condemnation of the income tax. We have warned the democrats of the south and west that the enactment of an income tax law would put northern republicans in the seats where northern democrats now sit in the House. Yesterday's special elections in this city confirm our predictions. It is not customary for republicans to be elected to Congress from this great democratic city. Nothing but democratic blunders and unworthiness have brought about the disaster in the fourteenth district. The income tax socialists and populists and the dishonest money men in Congress have put their necks in a noose. If they want to tighten it and swing off, let them vote unflinchingto incorporate the income tax bill with

From the New York Tribune (rep.). These elections turned almost exclusively on the tariff question. On all hands it has been admitted that a result materially varying from those of previous elections would indicate the temper of thousands of workingmen, who cast a great part of the vote in these districts, toward the tariff policy of the democratic party. Democratic journals appealed to them to sustain that policy. Messrs. Straus and Brown, the democratic candidates, labored to convince them that the Wilson tariff would be a blessing, and that all the prostration of industries since democrats came into power was due to the wicked republican laws. The fact that the people had prospered be-yond all precedent under those same laws, and began to suffer only after democratic and began to suffer only after democratic victory threatened a radical change, was concealed as far as possible. The republican candidates made a straightforward and manly appeal to the voters to declare by their votes whether they approved the Wilson bill. They urged the necessity of protecting home industries, and from the outset it was evident that a host of democratic workingment were with them. The appell workingmen were with them. The result cannot be mistaken. It shows that the Mrs. Zella Nicolaus, who created a sensa democratic party must expect to lose a heavy proportion of its wage-earning voters if it persists in its warfare against Ameri-

She had complained of a sick stomach some days before. Monday night, after supper, witness told his wife that he was going to the Capitol and she made the remark, "I know you are going to stay all night." Witness left home, but was raining and he only went as far as the grocery store and got a piece of tobacco. He returned home in about ten minutes and found that his wife had left the house. He

did not know where she had gone.

The heart-broken man complained about the action of the woman in allowing the body of his wife to remain in the house so long before sending word to the police. Since Monday he learned that his wife told some one in the "doctor's" house where be (her husband) could be found.

Result of the Autopsy.

Dr. Schaeffer testified as to the result of the autopsy he made yesterday afternoon. He found the body of the woman in the morgue, where it had been sent by the police. The woman was about thirty-five years old and weighed about 160 pounds. Witness found the woman's brain greatly congested, and described the condition of the different organs. From the condition of the body witness said he thought an at tempt had been made by some one to perform an abortion.

"What is your full name?" the coroner asked a colored woman called as a witness. "Rachel Ann Jones," was her reply. "Have you any business?" Yes, sir.

"What is it?" "I am an herb doctor," she replied. "I cure bed sores, spasms and rheumatism."
Witness was then questioned concerning the deceased, and she said that Mrs. Tills came to her house Monday evening about 8 o'clock. She said she wanted to see witness, and when she went in the room Mrs.
Tills said she wanted to see her (witness)
privately. They started through the hall
together, when Mrs. Tills suddenly threw
up her hands and fell. Witness thought she had a spasm. An application of cold water was made, and several doctors were sent for, but when Dr. Brooks responded, he said she was dead. The doctor, she said, advised her to keep the body in the ho until the next morning, and then notify the police. Witness said that Mrs. Tills was a stranger to her, and she refused to give her name. The coroner questioned the doctress about her remedies, and she mentioned the names of several herbs which, she said, she used in the cure of the diseases mentioned.

A colored woman named Josephine Lee, who lives at the house of preceding witness, was next called. She said that Mrs. Tills appeared to be in a dazed condition until the next morning, and then notify the

The Reports of the Inspection of the Militia Received at the War Depart ment. Adjt. Gen. Ruggles has decided that the

reports of inspection of the militia of the different states shall be made public hereafter, thereby reversing the practice of the last administration. It was then held by Adjt. Gen. Williams and others of equally good judgment that the object of the inspection was apt to be frustrated by the knowledge that the report was to be published in the newspapers; that the only way to insure a true and unbiased account of the National Guard was to have it known that the information obtained on that subject should be treated confidentially. It was alleged that all the militia inspection reports had the same favorable cast; that they were commendatory of everybody and everything. It was too much to expect, it was suggested, that army officers would be fearless who knew that their criticisms would be published and reach the citizen soldiers who had been courteous during a week or two of summer encampment. The inspector general advised to the con-trary. He insisted that the publication of

the reports was instructive to army offi-cers, as well as to the officers and men of the National Guard organizations. The deports found their way, presumably from of-ficial sources, to the state officers, and ab-stracts of these reports have been published in the local papers. The War Department has practically concluded that the publication of the reports will do more good than harm, and will hereafter treat them ac-

> Electric Railroads in Virginia. One of the leading members of the Georgetown Citizens' Association has received the following communication from a prominent citizen of Alexandria county and one who is doing much toward the

York city about constructing electric rail roads through Virginia. There would be no never before figured in such a case as this, although three members of the jury thought she had been before them before. She denied that she had been calling at Mrs. Jones' house with Mrs. Brown, as Mrs. Jones said.

There would be no trouble in the world to get the money or to have the roads built, if there was an entrance into Washington over the Aqueduct bridge. I am informed that there are millions of dollars in the banks of New York awaiting the chance of a good invest. Mrs. Jones' house with Mrs. Brown, as Mrs. Jones said.

This closed the testimony, and the jury, after discussing the evidence, returned a verdict as follows: "That Rebecca Tills came to her death about 9 o'clock n. m. trance into Washington. I would, there-fore, ask that you Georgetown fighters put your shoulders to the wheel and try to get from convuisions, the cause of which we are unable to determine. From the evidence we believe that Rachel Jones, at whose house the woman died, is practicing medicine in an irregular manner, and recommend the case to the health officer for investigation."

your shoulders to the wheel and try to get the Aqueduct bridge widened or strengthened so that a railroad could cross it. This would be worth millions to Georgetown. Can't you all lend your efforts to this one point for a month or so? There is a strong desire on the part of certain parties to build the road from Georgetown to Falls Church, and thence on to Fairfax Court House. Our blil has been amended to suit

Conflicting Opinions Upon the New York Elections.

From the New York World (dem.). The defeat of Col. Brown in the fifteenth district was not unexpected, in spite of the absurdity of the person set up as a candidate against him.

It was suspected in advance that Croker would undermine his candidacy. The boss was sorely displeased with the candidate because of the independence he had dis-played at Albany, and, while he did not venture to deny him the nomination, he found it convenient to prevent his election by making the most of the disgruntlements of letter carriers, policemen and firemen, and by keeping from the polis many voters

ABOUT GEORGETOWN.

A petition has been filed in the equity

ed at Hagerstown, has a capital stock of \$250,000, and is controlled by men of western Maryland. The year 1893 showed that the canal is now more than self-sustaining. The increase of tonnage and traffic does not increase the cost of running it. For the further growth of the canal business a new equipment must be put thereon. No one will take the risk of putting additional and new boats on the canal unless the uncer-tainty be removed as to the right of the trustees to continue the operation of the canal after the expiration of the four years mentioned in the decree of October 2, 1892. The canal is now said to be in a better condition than ever before in its history. The trustees have borrowed, for the purpose of making repairs, \$435,163,35. The refrom net tolls, &c., to December, 1893, were \$270,970.73. The expenditures have been for the repair of the canal and its work, under orders from the court, \$430,764.43; for other accounts, \$250,327.17.
